About Me

One thing to know about me is that I love my job. I knew when I was a little girl that I wanted to be a teacher and after having an amazing counsellor in high school, I pursued that career option.

I have 2 boys, ages 10 and 13, we are a close family and do lots of activities together. We are always going to parks, camping and doing anything outdoors for us to play, run, climb and get fresh air.

Education

SFU – Bachelor of Arts in Psychology

UBC – Bachelor of Education (elementary)

City University – Masters of Education in School Counselling
